Riot in the Garden – fun-filled science theater.

“Not only was Riot in the Garden awarded Most Educational at the Common Ground Fair, it was a delightful mix of comedy, music, and stories that delighted people of all ages.”

- Susan Pierce, Special Events Director, Maine Organic Farmers and Gardeners Association

“Your Riot in the Garden was a must-see for thousands of children, parents and teachers who attended the New England Flower Show. Both kids and parents were delighted by your ingenious combination of comedy, science and music.”

- Lynne Peterson, Massachusetts Horticultural Society

“Jackson was very professional and cordial. More importantly, he is a very talented entertainer and presented accurate information about agriculture with a very entertaining spin. Jackson has my most enthusiastic endorsement.”

- Emily Sperling, Massachusetts Cranberry Festival

“I was impressed with the quality of the content; important lessons were shared in a positive, fun way and the information was accurate & rich. It was great that the performance was so diverse and appealed to different types of learning styles.”

- Debbie Olstein, Blithewold Gardens & Arboretum
