Moon Crazy

Put on your imagination caps and blast off with Jackson on his lunar adventures. Captivating songs and stories, including Frank Asch's *Happy Birthday Moon*, take you far away and pilot you happily home.

"You held the attention of 150+ children and adults for an hour—without any hi-tech stuff! Loved the way you wove the stories & songs together with movements & laughter."

— Beth Wiseman, Loudoun, VA, Library Program Specialist

"Everyone loved all the participation, especially your use of sign language."

— frequent comment from sponsors

"I must say I'm a big fan of yours now...I was especially taken with your rendition of Mooncake. I've never heard it told so sweetly. I thought you did a perfect job."

— Frank Asch
